**COMMISSION ORDERS
SWEEPING SLASH OF
EXPRESS CO. RATES****Puts Them in Competition
With the Federal
Parcel Post.****CUTS OF 10 TO 60 PER CENT****After Long Fight Carriers are Forced
to Drop Exorbitant Charges, Effective
October 1st; Will Not Become
Permanent Until After Two Years.**

United Press Telegram.
WASHINGTON, Aug. 4.—Sweeping reductions in express rates on parcels all over the country came today as an order issued by the Interstate Commerce Commission, effective October 15. The reductions range from 10 to 60 per cent, and will relieve the shipper of the exorbitant charges he has been paying for years. During the first two years the new system of charges will be experimental. At the end of that time, if the loss to express companies is not too great, the new rates will be made permanent.

The companies have long opposed the commission's move, which was first made on June 8, 1912. The rates at that time were suspended pending further investigation. The order was finally put in effect today.

The new rates will be the express companies on a competitive basis with the federal parcel post system. In many cases the express rates will be lower than that of the postoffice. Practically all of the rates on parcels weighing under 50 pounds have been radically reduced, and on packages shipped less than 200 miles, many of the rates are lower. Goods sent over 3,000 miles are shipped at about the same rate as that of the parcel post.

The reduction is aimed at the high cost of living. Rates on food in many cases are 75 per cent lower than those on other first class articles. Rates on newspapers and magazines remain about the same.

That the express companies can meet the rates made by the parcel post system, is the contention of the commission. The report asserts that a radical change is to be made to simplify the rate tariff, which at present is a "Chinese puzzle" of 200,000,000 different rates. The new rates will be covered by zones and will number approximately 500,000.

A committee of express company officials and of members of the commission is provided for in the report. This committee is to provide accurate information that rates for the same distance in opposite directions shall be identical.

Another order of the commission provides that rates for the same distance in opposite directions shall be identical.

**THREE WIVES GIVE BATTLE
WITH HUSBANDS AND GIRL****Free-for-All Fight at Owensdale Sides
the Little Henriet; Filtration
Causes Hysteria.**

A free-for-all fight which required the combined efforts of the Owensdale populace quelled took place Saturday night when three male wives from Scottsdale used hatpins, needles and stones on two young girls they found talking with one of the husbands, a brakeman on the Summit coke train. The wives suspected that their husbands who are railroad men, were carrying on a flirtation with the comely Owensdale maids. They came to Owensdale and concealed themselves near the old graveyard. Along came the coke train. When it stopped, a brakeman took up his conversation with two maids, but it was rudely interrupted.

The onslaught was something terrible, bystanders declare. One of the wives grabbed a brake stick, another used stones while the third wedged a hatpin.

The maids were finally quelled, but not until hairpins, switches, rats and other articles of feminine apparel littered the landscape. All Owensdale had been attracted by the commotion and watched the fight. The coke train pulled out, with a badly battered brakeman on board.

The wives, after the battle, held a confab before departing for their homes and declared that they will come again, bringing reinforcements if they hear of any more carryings on with Owensdale girls. The girls, it is said, are indignant. How did they know the men were married they ask?

SHOOT UP TRAIN**Foreigner Creates a Panic Among
Lake Erie Passengers.**

United Press Telegram.
McKEESPORT, August 4.—Steve Seum, aged 39 of Monaca, now in jail charged with shooting up a Pittsburg & Lake Erie passenger train yesterday, is being held to await the outcome of an investigation as to whether he was intoxicated or a victim of a delusion.

Seum boarded the train yesterday morning between Elizabeth and McKeesport, and as it started to move, ordered the engineer to bring about from an automatic pistol.

County Detective Arthur Storer was seated in one of the rear coaches and when he heard the shots, made his way to the front of the train. He grabbed Seum, when the latter was reloading his revolver, and handcuffed him.

They swam down the river and refused to be caught.

**PRIZES FOR THE TROTTER
LAWNS AND GARDENS GIVEN****Three Families Almost Have Monop-
oly of Special Mention.**

The gardens and flowers at the Trotter plant of the H. C. Frick Coke Company were judged on Saturday. Although one of the ideas of the Connellville region plants, and not possessed of all the advantages which grace the works erected at a subsequent date, the Trotter residents have not permitted this to dampen their enthusiasm. Virtually every employee at the plant has either a flower or a truck garden worthy of mention, and it was with difficulty that the judges finally reached a definite conclusion.

In the garden competition prizes were given as follows: First, Barney Czeski, a coke drawer, house 48; second, Adam Tikay, pensioner, house 72; third, Charles Dombrosky, leveler, house 28; honorable mention, George Baker, carpenter, house 72.

For the flower and lawn competition, Adam Tikay was an easy winner for first prize. Taken together, his lawn and truck garden were not only splendidly arranged, with the truck showing a heavy yield, but both were immaculate, showing the result of careful attention throughout.

The season Charles Dombrosky was given second prize, and Barney Czeski, third. Honorable mention was given John Yushuck at house 137. Yushuck has been at Trotter for 23 years. Although his neighbors and good gardeners, none in his vicinity gave attention to lawn or flowers, and Yushuck's neatly arranged plants stood out in strong contrast.

Much credit for the splendid showing made in all parts of the Superior-toddard P. J. Tormay, who has been liberal in his expenditures along well-kept lines. Better drainage, more attractive fences and other improvements have worked wonders in spite of the rather dry season.

The evaluation of the prizes was made by a committee of judges. Accidental drawings, 2; accidental deaths, 2; accidental falls, 2; explosion of gas, 1; explosion of powder, 2; natural causes, 2; miscellaneous, 1; murders, 7; suicide, 1.

Tomorrow.****ALL RECORDS WILL BE BROKEN****Fourth Annual Bargain Day of Con-

Give All Previous Marks; Big

Shoppers from all parts of the coke region and the mountain districts will flock into Connellville tomorrow and Wednesday for the biggest buying festival the community has ever known. For the fourth successive year the merchants are holding their bargain day and never before has a wider variety of merchandise been offered. Because of the popularity of bargain day it was decided to hold a two-day sale this year.

Last year all previous records were broken, but this year promises to set a new mark that will be hard for the succeeding seasons to duplicate. The largest department store in the coke region states that the sales on the one day last year were never exceeded by a single day during the time the former has conducted its store here. Other merchants declared at that time they never did more business on any one day.

Bargain day is the greatest magnet to draw out of town trade that has yet been found. And it works. There is not a single store offering bargains on the previous sales day that have not added from one to a score of new customers. People come to town, get new bargains, and take up-to-date stores. Connellville has and then come back when they want something again. The new accounts added to the books as a consequence of bargain day are alone worth the effort.

To insure the success of the sale of visitors, every store has made arrangements for additional clerks. The department stores and larger merchandise houses are recruiting sales for the two days. Former employees are being imported from out-of-town for

Some Persons "Flinch" When Truth Hunts Them

"If any man is able to convince me and show me that I do not think or act right, I will gladly change, for I seek the truth, by which no man was ever injured."—Marcus Aurelius, Roman Emperor.

Some shrink and try to close their eyes and ears to the haunting fact that the little $2\frac{1}{2}$ grains of Caffeine in every average cup of coffee is the demon which relentlessly pursues and starts various ailments, such as biliousness, headache, nervousness, sleeplessness, bowel trouble, heart failure and a long string of aches and ills, taking one form in one person and another in another.

The effect of repeated doses of coffee, on those who are susceptible to caffeine poisoning, is so complex that it is difficult to foretell where its hurt will be most serious; in Heart, Head, Eyes, Nerves or where.

The stroke of trouble will come somewhere if the daily doses are persisted in.

Of course if anyone prefers to treat his body in that way it is useless to suggest relief.

Let him "follow the trail" until badly wounded.

Some go so far they can't get back to health. Others quit the foolish, losing game before fixed chronic disease sets in.

There is a mighty army of sensible ones, however, who have bravely tested the truth with their own bodies to see whether or not it was the truth that coffee caused their ailments.

It's an easy test. Quit coffee absolutely for 10 days. Take Postum hot and well-made and keep track of the change toward health day by day.

It's the most exquisite pleasure in the world to be perfectly well with all the delicate and beautifully adjusted machinery of the body working in harmony, not interfered with by drugs, one of the most insidious and deceptive of which is caffeine in coffee.

This is Truth.
Meet it bravely with head up and a hearty handshake.

Truth thus made welcome will prove your best friend.

These are facts without regard to our own opinion, or to whether or not you use Postum.

However it is well to consider that famous food, drink because it supplies a hot beverage of the deep seal brown color of coffee, which turns to the rich golden brown when cream is added.

It has a snappy flavor much like the old-time real Java, but there is no "sting" in it, no caffeine or other drug of any sort. It is skillfully manufactured of wheat and a trace of New Orleans molasses.

It comes in two forms. One called Regular Postum, must be boiled full 15 minutes.

The other, Instant Postum, is in powder form and a level teaspoonful in a cup of hot water makes the beverage instantly. Grocers keep both kinds.

There's a Reason" for POSTUM

COODING TARIFF POLICIES.

One of the most potent and perhaps one of the most effective arguments of the Democrats against the Republican policy of Protection was that it coddled the infant industries of the country until they grew to giant combinations which threatened to enslave the people by the power of wealth.

Whatever of danger there may have been in such a situation it must be admitted that it has been entirely dispelled by the discovery that after all the power of the people is supreme, and that no citizen, or group of citizens, or corporation or combination of wealth, is greater than the government.

The Democratic Tariff revolutionists have apparently persuaded themselves that it is the foreign manufacturer who should be coddled, not the American manufacturer. The Senate has added largely to the number of articles placed on the free list by the House with the evident conviction that the chief end and interest of the American buyer is to purchase abroad, regardless of the patent fact that unless the American manufacturer produces he and his employees cannot consume, and that such a condition followed to its logical conclusion means more prosperity abroad than at home.

The Republican statesmen do not hope to prevent this Democratic folly, but they propose that the Democratic party shall not escape the full consequences of it. They are making up the record of Democratic responsibility, and they are making it full and complete.

They do not believe the people will approve of the policy of coddling the foreign manufacturer and condemn him the home producer, especially when the full effect of that policy becomes apparent.

GOVERNMENT-BY-MANAGER.

The new-fangled city government seems to have had much of its initiative and considerable of its referendum in the Northwestern corner of the state. Since the passage of the bill we have received numerous printed suggestions from enthusiastic admirers principally at Meadville.

Some of these are interesting. The latest one suggests that the salary of magistrates and councilmen in third class cities like ours is, or hopes to be, are not sufficient to justify a citizen in giving the public business all of his time. It is pointed out that there is no way to increase the salary save by action of council which relates only to members elected subsequently.

To obviate this difficulty, the author of the document suggests the creation of the office of General Manager. This officer will be charged with the duty of doing all the work and relieving the councilmen and mayor of any service save that of drawing their salaries and hearing the manager's report occasionally. There is nothing in the law which forbids the council from paying the manager any salary it sees fit.

The benefits of the new third class city government are just beginning to be understood.

"The Herald has just concluded its annual inspection of the brick plants in this region," says the Uniontown High-Water-Mark. Wonder how these plants get along the balance of the year.

Greene county Justice is determined to punish those who have profaned her Temple.

Party enrollment is something of a political census which may be depended upon if it is certain that there are no axes or more endearing arguments concealed in the situation.

The Conneltsville fire trust announces that it is now prepared to end the hottest complaints of the season.

The Conneltsville firemen are working hard for the State Firemen's Convention without the aid or consent of the Uniontown firemen.

The persistent dynamiting of our streams by vandals intent on capturing a few edible fish suggests the propriety of stringent legislation, regulating the sale, storage and possession of dynamite and other high explosives.

Now that it's all over there is consolation in the thought that there have been better July's.

"Pardons are impossible under the Democratic Currency bill," says a Democratic organ in a wild outburst of confidence. We will all hope so. It always helps some to hope some.

Connellsville's coming theatrical season promises to be just a few steps from Broadway.

There promises to be a near-riot in Congressional circles at Washington if the Democratic leaders do not comply with the demand of the new members to open the Park, Earl and hand out a new government building to every doubtful democrat. How easy it is to be economical when the other party has the keys of the treasury, and vice versa.

Lewellyn's crime seems to be that he is not the Elder Soldier.

The Gehenna Club didn't meet last week, possibly because the members despaired of making it hotter than the weather.

Since the Little Giant joined the Bull Moose movement even the shut-out is blooming yellow in Everson.

The crop of political candidates is rather late this year, but it will be just as luxuriant.

Abe Martin.

Some fellows take a vacation like they wear eyeglasses over the well-fare of the community. What's become of the old-fashioned woman that wears four petticoats and who's got a home of the girl that looks like she don't wear any? Miss Fawn Jipphurst says, "We're all dandies, dressed for a while and then forgotten when the purlier blooms of summer arrive." Lots of married folks think they're happy when they're only used to it.

Want Something?

When there ever a time when you didn't?

When you draw your first breath in this "vale of tears" you wanted food and attention. You wanted the best by trying and not what you wanted.

This is a mutual sort of world. Mother answered your cries. Your first hunger satisfied. But you the attention you wanted and mother was repaid a hundred fold by your love and health.

Merchants and business men who are advertising in today's COURIER want something.

They want your patronage. Their advertising is not good unless it serves you. If it does, both benefit.

Today's COURIER contains many interesting advertisements. They are varied in character. All of them will not appeal to every reader—but each of them will be important reading to some one.

You may find the very message intended for you in the first advertisement you read!

SCOTSDALE OUTING CLUB LEAVES FOR ANNUAL OUTING

They Go to North Girard for Their Sixth Outdoor Vacation.

WELL PROVIDED FOR CAMPING

Popular Organization of Young Men of the Mill Town Enjoy the Lake Breeze for a Couple of Weeks; Other Notes of the Mill Town.

Special to The Courier. SCOTSDALE, August 4.—The Scottdale Outing Club, a popular organization among the young fellows of town, who delight in camping at their vacation pastimes, left on their special car attached to the morning train today. Their destination was North Girard which they expected to reach shortly after noon. Their return has been set for Tuesday, August 19, and until that time there will be great sport fishing, bathing, rowing and other athletics.

The camp will be pitched on Elk creek on the shores of Lake Erie, the tents about 5 feet from the lake and about 25 feet above the level of the lake. The camp will be larger this year than ever and will contain eight sleeping tents, the most of them 10x12 with four feet side walls. There will be one mess tent 18x30 feet in dimensions and with six-foot side walls. There will be a large cook tent and a supply tent and all the necessary paraphernalia for cooking, eating and sleeping.

This will be the sixth annual trip of the club, the last having been organized in 1907, although an outing was held the following year. The culinary department will be well manned with a colored chef and two assistants and one of the features of the year trip is the eating and for which the camp is noted as to the quality of its meals. Visitors are always welcome in camp, and the club extends the heartiest kind of welcome to anyone from Scottdale who may happen to be in the neighborhood to visit the camp. Each summer visitors go up over Sunday from this place.

Each year some of the members take advantage of the nearness to Niagara Falls to take a day and view the wonders of that section. Several have already told plans to take this trip. Erie and its pretty parks presents another convenient attraction for different ones of the party.

The following members were packed and down for the trip this year: C. T. Smith, president; R. E. Morford, secretary; C. D. Kinn, C. W. Lipp, E. J. Lane, Joseph Lagan, C. N. Shaffer, Ernest Guest, Herman Miller, W. F. Mellinger, Frank Skinner, C. E. Kinn, Edward Stamm, George Stamm, Edward Palmer and Charles Carlson. The roster is open for members and these are voted on by the club each month.

WAS INJURED. Preparations are being started for the third annual reunion of the Hixson relationship, which will be held at the home of D. D. Hixson, near Westley Chapel, west of Scottdale, on Saturday, September 15. The friends and relatives are invited to be present and to bring well filled baskets and have a pleasant day. William Hixson is president, George Hixson the treasurer, and Clark Hixson of Conneltsville the secretary of the Hixson Family Association. The family is a large one and their two reunions already held have been very enjoyable ones.

FROM CONVENTION. Mr. and Mrs. D. T. Poole and Miss Norma Keller, of T. Smith and his sister, Miss Frances Smith, have arrived home from the Bible Conference held at Bible School Park, near Binghamton, New York. Messrs. Poole and Smith are Pennsylvania railroad engineers. Their report on an enjoyable time under the teaching of the world's best Bible scholars, and say that Evangelist John A. Davis, who is at the head of the school, is apparently recovering from his serious illness. Mr. Poole, a young Italian boy from this place, is making quite a mark at the Bible Training School and in evangelization work among the foreign speaking people of Binghamton.

MEYERSDALE

MEYERSDALE, August 2.—Milton Rubright, aged 19 years, eldest son of Mr. and Mrs. Frank Rubright, was instantly killed yesterday by a local freight train at Salisbury Junction on the Baltimore & Ohio railroad. He was a truck employee and stopped from an eastbound freight directly in front of a train bound west. He is survived by his parents, one brother, Elmer, and the following sisters: Edna, Lucila, Laura and Mary. Funeral services will be conducted at the home of the deceased's parents at Salisbury Junction this afternoon by Rev. J. W. Peck. Interment in the Union Cemetery at Meyersdale.
